Fleetguard®

2015 Filtration and Chemical Cross Reference / Product Guide

Fleetguard®

Evolutionary Filtration.

Lube Filtration featuring NanoNet® Media for Cummins ISX Engines.

Today's Cummins engines give higher performance and better fuel economy than ever before. Lubricating oils have also evolved to meet the demands of the harshest driving and operating conditions, and now filters are evolving too. Meet the latest in lube filtration technology – the **LF14000NN** with NanoNet media.

Scan here to learn more about the **LF14000NN** with NanoNet media.

The Cummins Filtration Warranty

If you are dissatisfied with the performance of any Cummins Filtration product, we will gladly replace the product free of charge under our Limited Warranty..

-Limited Warranty-

Warranty: In the unlikely event that a product defect necessitates repair of the engine or components, Cummins Filtration will reimburse reasonable costs to repair or replace, whichever is less, the damaged engine or components. Equipment warranties should not be voided solely due to the use of Cummins Filtration products.

Duration: This Warranty extends from the date of installation of the Cummins Filtration product through the duration of the OEM-recommended or Cummins Filtration published service life for the product, whichever is longer (consult the back of this form for specific product information).

Limitations: Cummins Filtration is not responsible for reduced service life or failure resulting from unintended applications, misuse, faulty installation, alteration, neglect, accident, or conditions resulting from actions outside Cummins Filtrations' control, including but not limited to contaminated fluid conditions. Cummins Filtration is not responsible for downtime, loss of income, living expenses, or other incidental or consequential damages. This Limited Warranty is the sole warranty made by Cummins Filtration. CUMMINS FILTRATION MAKES NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Effective date: 09 Feb 2012

Warranty Coverage Period for Cummins Filtration Products

- **Service Parts:**

General Service Items	3 months from purchase date
Restriction Gauges	1 year from purchase date
Remote Heads	1 year from purchase date
Air Shield™ DEF Dispensing Kits	3 years on pumps and motors

- **Service Parts- Electrical**

Engine Block Heaters	1 year- part only
PTC Heater	1 year- part only
WIF sensor	1 year- part only

- **Air Housings, Liquid Filtration Assemblies and Crankcase Ventilation Assemblies (open-OCV/Closed-CCV)** 1 year from purchase date

- **Fleetguard Single and Dual Stage Air Pre-Cleaners** 2 years from purchase date

- **Dry-type Air Filters are NOT warranted if they have been cleaned or serviced in any manner.**

- **Cummins Filtration chemical products are warranted to be formulated, blended, and tested to meet OEM (Original Engine Manufacturers) requirements and performance specifications established by the following International organizations:**

ASTM	(Automotive Society for Testing and Materials)
SAE	(Society of Automotive Engineers)
TMC	(Technology and Maintenance Council)
JIS	(Japanese Industrial Standard)

Cummins Filtration cannot warrant its chemical products if they are mis-applied or used under improper maintenance practices.

- **Cummins Filtration's Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™, and REN™ :**

Hardware (Housing)	5 years from purchase date
Electrical Components	2 years from purchase date
General Service Hardware	Not warrantable
REN oil tank	1 year from purchase date

- When the Original Engine Equipment Manufacturer approves ES (Extended Service) oil change intervals over their normal oil change intervals, ES (Extended Service) filters are required for Cummins Filtration warranty coverage.

- If you suspect a Fleetguard filter has caused progressive damage to your equipment, please call our Warranty Department at 1-800-223-4583. Please ensure that the suspect filter is kept intact and not cut opened or damaged in any way. Providing the filter in an "as used" condition will improve the ability to find the root cause of the problem.

La garantie Cummins Filtration

Si vous n'êtes pas satisfait des performances d'un produit Cummins Filtration, nous nous ferons un plaisir de remplacer gratuitement ce produit, en vertu de notre garantie limitée.

-Garantie limitée-

Garantie : Dans le cas peu probable du mauvais fonctionnement d'un produit, qui nécessiterait la réparation du moteur ou de ses composants, Cummins Filtration remboursera les coûts raisonnables pour la réparation ou le remplacement du moteur ou des composants endommagés, selon ce qui entraîne le moins de coûts. Les garanties sur l'équipement ne doivent pas être annulées uniquement en raison de l'utilisation des produits Cummins Filtration.

Durée : Cette garantie est effective à compter de la date d'installation du produit Cummins Filtration et ce, pendant toute la durée de vie du produit recommandée par le fabricant d'équipement ou publiée par Cummins Filtration, selon la période la plus longue des deux (consultez le verso de ce formulaire pour obtenir les informations particulières sur le produit).

Limites : Cummins Filtration n'est pas responsable de la durée de vie réduite ou des pannes dues à des applications incorrectes, une mauvaise utilisation, une installation défectueuse, des modifications, de la négligence, un accident, ou des conditions provenant d'actions en dehors du contrôle de Cummins Filtration, notamment, mais sans s'y limiter, des environnements de fluides contaminés. Cummins Filtration n'est pas responsable des temps d'arrêt, des pertes de revenus, des frais de subsistance, ni de tout autre dommage accessoire ou consécutif. Cette garantie limitée est la seule garantie proposée par Cummins Filtration. CUMMINS FILTRATION N'ACCORDE AUCUNE AUTRE GARANTIE, EXPRESSE OU IMPLICITE, DE QUALITÉ MARCHANDE OU D'ADÉQUATION À UN USAGE PARTICULIER.

Période couverte par la garantie pour les produits Cummins Filtration

- **Pièces de rechange :**

Éléments pour l'entretien de base	3 mois à compter de la date d'achat
Jauges de restriction	1 an à compter de la date d'achat
Têtes à distance	1 an à compter de la date d'achat
Kits de distribution FED Air Shield™	3 ans sur les pompes et les moteurs

- **Pièces de rechange électriques**

Chauffe-moteurs	1 an sur les pièces uniquement
Éléments chauffants CTP	1 an sur les pièces uniquement
Sonde WIF	1 an sur les pièces uniquement

- **Boîtiers d'air, Ensembles de filtration de fluides et Ensembles de ventilation de carter (ouvert-VCO/fermé-VCF)** 1 an à compter de la date d'achat

- **Pré-nettoyeurs à air à un ou deux niveaux Fleetguard** 2 ans à compter de la date d'achat

- **Les filtres à air (type sec) ne sont PAS garantis s'ils ont été nettoyés ou réparés de quelque manière que ce soit.**

- **Les produits chimiques Cummins Filtration sont garantis pour être formulés, mélangés et testés pour répondre aux exigences des fabricants d'équipements (OEM) et aux spécifications de performance établies par les organisations internationales ci-dessous :**

ASTM	(Automotive Society for Testing and Materials, Société américaine pour les essais et les matériaux)
SAE	(Society of Automotive Engineers, Société des ingénieurs de l'automobile)
TMC	(Technology and Maintenance Council, Conseil sur la technologie et la maintenance)
JIS	(Japanese Industrial Standard, Norme industrielle japonaise)

Cummins Filtration ne peut pas garantir ses produits chimiques s'ils sont mal appliqués ou utilisés selon des pratiques d'entretien incorrectes.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ et REN™ de Cummins Filtration :**

Matériel (boîtier)	5 ans à compter de la date d'achat
Composants électriques	2 ans à compter de la date d'achat
Matériel pour l'entretien de base	Non couvert par la garantie
Réservoir d'huile REN	1 an à compter de la date d'achat

- Lorsque qu'un constructeur approuve l'utilisation d'huile longue-durée (afin d'allonger les intervalles de vidange), des filtres ES (intervalle de remplacement étendu) doivent être utilisés pour bénéficier de notre garantie.

- Si vous suspectez qu'un filtre Fleetguard a progressivement endommagé votre équipement, appelez notre service après-vente au 1-800-223-4583. Maintenez bien le filtre suspect intact, ne l'ouvrez pas et ne l'endommagez en aucune manière. La fourniture du filtre usagé "tel quel" améliore la probabilité de comprendre les causes du problème.

Garantia da Cummins Filtration

Se você não estiver satisfeito com o desempenho de qualquer produto Cummins Filtration, substituiremos o produto gratuitamente nos termos de nossa Garantia limitada.

-Garantia limitada-

Garantia: No evento improvável de um produto defeituoso exigir reparos no motor ou em seus componentes, a Cummins Filtration reembolsará os custos cabíveis de reparo ou substituição, o que for menor, do motor ou de seus componentes danificados. As garantias dos equipamentos não devem ser anuladas somente devido ao uso de produtos Cummins Filtration.

Duração: Esta garantia estende-se a partir da data de instalação do produto Cummins Filtration até a duração da vida útil do produto recomendada para o equipamento original ou publicada pela Cummins Filtration, o que for maior (consulte o verso deste formulário para obter informações específicas sobre o produto).

Limitações: A Cummins Filtration não se responsabiliza por redução na vida útil nem falha resultante de aplicações inadvertidas, mau uso, instalação defeituosa, alterações, negligência, acidente ou condições resultantes de ações fora do controle da Cummins Filtration, incluindo, entre outras, condições de fluido contaminado. A Cummins Filtration não se responsabiliza por paralisações, perda de receita, despesas com manutenção ou outros danos incidentais ou consequências. Esta garantia limitada é a única garantia oferecida pela Cummins Filtration. A CUMMINS FILTRATION NÃO OFERECE NENHUMA OUTRA GARANTIA EXPRESSA OU IMPLÍCITA, DE COMERCIABILIDADE OU ADEQUAÇÃO DO PRODUTO A UM FIM EM PARTICULAR.

Período de cobertura da garantia dos produtos da Cummins Filtration

- **Peças de manutenção:**

Itens gerais de manutenção	3 meses da data de compra
Indicadores de restrição	1 ano da data de compra
Cabeçotes remotos	1 ano da data de compra
Kits dispensadores com DEF Air Shield™	3 anos em bombas e motores

- **Peças de manutenção - elétrico**

Aquecedores do Bloco do Motor	1 ano - peça apenas
Aquecedor PTC	1 ano - peça apenas
Sensor WIF	1 ano - peça apenas

- **Conjuntos de compartimentos de ar e de filtragem de líquido e Conjuntos de ventilação do cárter (OCV aberto/CCV fechado)** 1 ano da data de compra

- **Pré-purificadores de ar Fleetguard de um e dois estágios** 2 anos da data da compra

- **Os Filtros de Ar do Tipo Seco NÃO estarão sob garantia se tiverem sido limpos ou se qualquer manutenção tiver sido realizada.**

- **Os produtos químicos da Cummins Filtration têm garantia de que foram formulados, misturados e testados para atender às exigências do fabricante original (OEM) e às especificações de desempenho estabelecidas pelas seguintes organizações internacionais:**

ASTM	American Society for Testing and Materials (Sociedade Americana de Testes e Materiais)
SAE	Society of Automotive Engineers (Sociedade de Engenheiros Automotivos)
TMC	Technology and Maintenance Council (Conselho de Tecnologia e Manutenção)
JIS	Japanese Industrial Standard (Padrão Industrial Japonês)

A Cummins Filtration não pode oferecer garantia a seus produtos químicos caso tenham sido mal aplicados ou utilizados em práticas inadequadas de manutenção.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ e Cummins Filtration REN™ da Cummins Filtration:**

Ferragens (Estrutura)	5 anos da data de compra
Componentes elétricos	2 anos da data de compra
Ferragens de serviços gerais	Sem garantia
Tanque de óleo REN	1 ano da data de compra

- Quando uma montadora aprova os intervalos de troca de óleo ES (Serviço Estendido) ao invés do intervalo convencional, filtros ES (Serviço Estendido) são necessários para a cobertura da garantia da Cummins Filtration.

- Se você suspeitar que um filtro da Fleetguard causou um dano progressivo no seu equipamento, por favor ligue para nosso Departamento de Garantia no 1-800-223-4583. Favor certificar-se de que o filtro suspeito está intacto, não aberto ou danificado de alguma maneira. Fornecer um filtro da mesma maneira em que ele foi utilizado vai aumentar a capacidade de encontrar a raiz da causa do problema.

La garantía de Cummins Filtration

Si no está satisfecho con el rendimiento de algún producto de Cummins Filtration, con mucho gusto le sustituiremos el producto sin costo alguno según nuestra garantía limitada.

-Garantía limitada-

Garantía: En el supuesto improbable de que un defecto en un producto hiciera necesaria una reparación del motor o los componentes, Cummins Filtration reembolsará los costos razonables de la reparación o sustitución (la que resulte más económica), del motor o los componentes dañados. Las garantías de los equipos no deberían cancelarse solo por el uso de productos de Cummins Filtration.

Duración: Esta garantía se prolonga desde la fecha de instalación del producto de Cummins Filtration mientras dure la vida útil del producto según la recomendación original del fabricante o publicada por Cummins Filtration, la que cubra más tiempo, (consulte el reverso de este formulario para obtener información específica del producto).

Limitaciones: Cummins Filtration no se responsabiliza por la reducción de la vida útil ni por fallos que surjan como consecuencia de aplicaciones para las que no está diseñado, uso indebido, instalación incorrecta, modificación, negligencia, accidentes o condiciones provocadas por acciones ajenas al control de Cummins Filtration que incluyen, entre otras, el contacto con fluidos contaminados. Cummins Filtration no se responsabiliza por el tiempo de inactividad, la pérdida de ingresos, los gastos de mantenimiento, ni por otros daños incidentales o derivados. Esta garantía limitada es la única garantía que ofrece Cummins Filtration. CUMMINS FILTRATION NO OFRECE NINGUNA OTRA GARANTÍA, NI EXPRESA NI IMPLÍCITA, DE COMERCIABILIDAD O ADECUACIÓN PARA NINGÚN PROPÓSITO DETERMINADO.

Periodo de cobertura de la garantía de los productos de Cummins Filtration

- **Piezas de mantenimiento:**

Piezas de mantenimiento general	3 meses desde la fecha de compra
Manómetros de limitación	1 año desde la fecha de compra
Cabezales remotos	1 año desde la fecha de compra
Kits de suministro de DEF Air Shield™	3 años para bombas y motores

- **Piezas de mantenimiento- Eléctricas**

Calefactores de bloques de motor	1 año- solo pieza
Calefactores de coeficiente positivo de temperatura	1 año- solo pieza
Sensor de agua en combustible	1 año- solo pieza

- **Casetas de aire, Conjunto de filtración de líquidos y Conjuntos de ventilación de cárter (OCV abierto/CCV cerrado)** 1 año desde la fecha de compra

- **Prefiltros de un solo paso y de dos pasos de Fleetguard** 2 años desde la fecha de compra

- **Los filtros de aire en seco NO tienen garantía si se han limpiado o han recibido mantenimiento de cualquier tipo.**

- **Se garantiza que los productos químicos de Cummins Filtration pueden formularse, mezclarse y analizarse para cumplir los requisitos de los fabricantes de motores originales y las especificaciones de rendimiento establecidas por las siguientes organizaciones internacionales:**

ASTM	(Automotive Society for Testing and Materials, Sociedad de Automoción de Pruebas y Materiales)
SAE	(Society of Automotive Engineers, Sociedad de Ingenieros Técnicos en Automoción)
TMC	(Technology and Maintenance Council, Consejo de Tecnología y Mantenimiento)
JIS	(Japanese Industrial Standard, Norma Industrial Japonesa)

Cummins Filtration no puede dar garantía a sus productos químicos si se aplican o utilizan de manera indebida con prácticas de mantenimiento inadecuadas.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ y REN™ de Cummins Filtration:**

Hardware (Casetas)	5 años desde la fecha de compra
Componentes eléctricos	2 años desde la fecha de compra
Hardware de mantenimiento general	No tiene garantía
Depósito de aceite REN	1 año desde la fecha de compra

- When the Original Engine Equipment Manufacturer approves ES (Extended Service) oil change intervals over their normal oil change intervals, ES (Extended Service) filters are required for Cummins Filtration warranty coverage.

- If you suspect a Fleetguard filter has caused progressive damage to your equipment, please call our Warranty Department at 1-800-223-4583. Please ensure that the suspect filter is kept intact and not cut opened or damaged in any way. Providing the filter in an "as used" condition will improve the ability to find the root cause of the problem.

Cummins Filtration-Garantie

Sollten Sie mit einem Produkt von Cummins Filtration unzufrieden sein, tauschen wir es gern im Rahmen der beschränkten Garantie kostenlos um.

-Beschränkte Garantie-

Garantie: Für den unwahrscheinlichen Fall, dass ein Produktdefekt zusätzlich die Beseitigung eines Motorschadens erforderlich macht, übernimmt Cummins Filtration nach dem Prinzip der jeweils kostengünstigsten Variante die als vernünftig anzusehenden Kosten für den Austausch oder die Reparatur des beschädigten Motors bzw. der beschädigten Motorteile. Bestehende Motorsystem-Garantien sollten jedoch nicht allein durch den Gebrauch von Cummins Filtration-Produkten ungültig werden.

Garantiedauer: Diese Garantie gilt ab dem Zeitpunkt der Installation des Produkts von Cummins Filtration bis zum Ablauf der vom jeweiligen OEM-Hersteller empfohlenen oder von Cummins Filtration veröffentlichten Lebensdauer des Produkts, je nachdem, welcher Zeitraum länger ist (die spezifischen Angaben zum Produkt finden Sie auf der Rückseite dieses Formulars).

Garantiebeschränkungen: Cummins Filtration ist nicht für eine verkürzte Lebensdauer oder Schäden aufgrund falscher Anwendung, Missbrauch, fehlerhafter Installation, Modifikation, Nachlässigkeit, Unfall oder Bedingungen aufgrund von Handlungen verantwortlich, auf die Cummins Filtration keinen Einfluss hat. Dies gilt unter anderem für die Verunreinigung von Flüssigkeiten. Cummins Filtration haftet nicht für Ausfallzeiten, Einkommensverluste, Lebenshaltungskosten oder andere Neben- bzw. Folgeschäden. Die Garantie von Cummins gilt ausschließlich mit den oben genannten Einschränkungen. CUMMINS FILTRATION ÜBERNIMMT KEINE WEITEREN GARANTIEN, WEDER AUSDRÜCKLICH NOCH KONKLUDENT, FÜR DIE TAUGLICHKEIT UND GEBRAUCHSFÄHIGKEIT FÜR BESTIMMTE ZWECKE.

- **Fleetguard Einzel- und Doppelstufen-Luftvorfilter** 2 Jahre ab Kaufdatum

- **Für Trockenluftfilter besteht KEINE Garantie, wenn sie bereits gereinigt oder anderweitig gewartet wurden.**

- **Cummins Filtration garantiert, dass die Formeln und Mischungen der chemischen Produkte den Vorgaben und Leistungsanforderungen der OEM (Originalhersteller) entsprechen und demgemäß geprüft wurden. Dabei wurde den Spezifikationen folgender internationaler Organisationen gefolgt:**

ASTM	(Automotive Society for Testing and Materials)
SAE	(Society of Automotive Engineers)
TMC	(Technology and Maintenance Council)
JIS	(Japanese Industrial Standard)

  Eine Garantie auf chemische Produkte von Cummins Filtration kann nicht gewährt werden, wenn diese fehlerhaft angewendet oder unter mangelhaften Wartungsbedingungen eingesetzt werden.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ und REN™ von Cummins Filtration:**

Hardware (Gehäuse)	5 Jahre ab Kaufdatum
Elektrische Bauteile	2 Jahre ab Kaufdatum
Allgemeine Servicehardware	Keine Garantie möglich
REN-Öltank	1 Jahr ab Kaufdatum

- Wenn ein Erstausrüster verlängerte Ölwechsel-Intervalle (ES-Extended Service) genehmigt, dann müssen entsprechend geeignete (ES-Extended Service) Fleetguard Filter verwendet werden, um die entsprechende Deckung durch die Cummins Filtration Garantie zu gewährleisten.

- Falls Sie glauben, dass ein Fleetguard Filter für einen Schaden verantwortlich sein könnte, dann rufen Sie bitte das Department 'Garantie' unter 1-800-223-4583 an. Bitte stellen Sie sicher, dass der verdachte Filter intakt - also weder geöffnet oder beschädigt- ist. Den Filter in seinem normalen Einsatzzustand zur Verfügung zu stellen, erhöht die Chance, um die Ursache für das Problem zu entdecken.

La garanzia di Cummins Filtration

Qualora non siate soddisfatti delle prestazioni di un prodotto Cummins Filtration, saremo lieti di sostituire gratuitamente il prodotto secondo i termini della nostra Garanzia limitata.

-Garanzia limitata-

Garanzia: nell'eventualità che il difetto di un prodotto Cummins Filtration richieda la riparazione del motore o dei componenti, Cummins Filtration rimborserà un importo ragionevole per la riparazione o la sostituzione, qualunque sia il valore inferiore, del motore o dei componenti danneggiati. Le garanzie delle apparecchiature non saranno invalidate solo se sono stati utilizzati prodotti Cummins Filtration.

Durata: la validità di questa Garanzia decorre dal giorno dell'installazione del prodotto Cummins Filtration fino alla durata consigliata dall'OEM o la durata di vita del prodotto indicata da Cummins Filtration, qualunque sia la durata più lunga (si consulti il retro di questo modulo per informazioni specifiche sui prodotti).

Limiti: Cummins Filtration non è responsabile della durata limitata dei prodotti o di guasti derivanti da applicazioni per i quali non sono destinati, cattivo uso, installazione errata, alterazione, negligenza, incidenti o condizioni derivanti da azioni estranee al controllo di Cummins Filtration, incluse, senza limitazione, condizioni di liquido contaminato. Cummins Filtration non risponde dei tempi di inattività, del mancato guadagno, delle spese di mantenimento o di altri danni incidentali o conseguenti. Questa Garanzia limitata è l'unica garanzia fornita da Cummins Filtration. CUMMINS FILTRATION NON FORNISCE ALTRE GARANZIE, IMPLICITE O ESPLICITE, DI COMMERCIABILITÀ O IDONEITÀ PER UN DETERMINATO SCOPO.

Data di validità: 9- Febbraio-2012

Periodo di copertura della garanzia per i prodotti Cummins Filtration

- **Ricambi:**

Articoli generici	3 mesi dalla data di acquisto
Indicatori a restrizione	1 anno dalla data di acquisto
Testate remote	1 anno dalla data di acquisto
Kit di distribuzione Air Shield™ DEF	3 anni su pompe e motori

- **Ricambi di componenti elettrici**

Riscaldatori a blocco del motore	1 anno solo per i componenti
Riscaldatore PTC	1 anno solo per i componenti
Sensore WIF	1 anno solo per i componenti

- **Supporti filtro aria, elementi di filtraggio dei liquidi e assemblaggio ventilazione per carter (aperto-OCV/chiuso-CCV)** 1 anno dalla data di acquisto

- **Prefiltri dell'aria a stadio singolo e doppio Fleetguard** 2 anni dalla data di acquisto

- **I filtri dell'aria a secco NON sono coperti da garanzia se sono stati puliti o sottoposti a manutenzione.**

- **Si garantisce che i prodotti chimici di Cummins Filtration sono stati formulati, miscelati, e testati per accertarne il soddisfacimento dei requisiti imposti dagli OEM (Original Engine Manufacturers) e le specifiche relative alle prestazioni definite dai seguenti organismi internazionali:**

ASTM	(Società Automobilistica Collaudi e Materiali, Automotive Society for Testing and Materials)
SAE	(Società Ingegneri Automobilistici, Society of Automotive Engineers)
TMC	(Consiglio Tecnologia e Manutenzione, Technology and Maintenance Council)
JIS	(Standard Settoriale Giapponese, Japanese Industrial Standard)

  Cummins Filtration non garantisce i propri prodotti chimici in caso d'uso o applicazione impropri e inosservanza di prassi di manutenzione adeguate.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ e REN™ di Cummins Filtration:**

Hardware (telai)	5 anni dalla data di acquisto
Componenti elettrici	2 anni dalla data di acquisto
Componenti hardware generici	Non coperti da garanzia
Serbatoio olio REN	1 anno dalla data di acquisto

- Quando il produttore dei motori approva l'estensione del periodo per il cambio dell'olio motore, diventa obbligatorio l'impiego dei filtri ES (Extended Service- lunga percorrenza) per poter usufruire della garanzia di Cummins Filtration.

- Laddove riscontrate un mal funzionamento del motore la Fleetguard vi mette a disposizione la possibilità di analizzare le condizioni d'uso del filtro. A tal fine vi preghiamo di contattare il Servizio Garanzia al numero seguente: 1-800-223-4583. Prima di inviare il filtro vogliate assicurarvi che lo stesso non sia stato né aperto né danneggiato, condizione necessaria per risalire alla causa del problema.

De Cummins Filtration-garantie

Als u niet tevreden bent met de prestatie van een Cummins Filtration-product, vervangen we het product gratis voor u, zoals bepaald in onze beperkte garantie.

- Beperkte garantie -

Garantie: In het onwaarschijnlijke geval dat, omwille van een bepaald defect aan het product, de motor of een van de componenten moet worden gerepareerd, vergoedt Cummins Filtration alle redelijke kosten voor de reparatie of vervanging, afhankelijk van welke de laagste is, van de beschadigde motor of componenten. De garantie van een apparaat mag niet ongeldig worden verklaard enkel omwille van het gebruik van Cummins Filtration-producten.

Garantieperiode: Deze garantie geldt vanaf de datum van installatie van het Cummins Filtration-product tot het einde van ofwel de door de OEM aanbevolen levensduur van het product ofwel de door Cummins Filtration gepubliceerde levensduur van het product, waarbij de langste van de twee geldt.

Beperkingen: Cummins Filtration is niet verantwoordelijk voor een verminderde levensduur of defecten als gevolg van onrechtmatig gebruik, misbruik, verkeerde installatie, productwijzigingen, nalatigheid, ongevallen of situaties die buiten de controle van Cummins Filtration vallen, inclusief maar niet beperkt tot situaties met verontreinigde vloeistoffen. Cummins Filtration is niet verantwoordelijk voor uitvaltijd, inkomstenderving, verblijfsonkosten of andere incidentele of gevolgschade. Deze beperkte garantie is de enige garantie verstrekt door Cummins Filtration. CUMMINS FILTRATION VERSTREKT GEEN ANDERE GARANTIES, EXPLICIET OF IMPLICIET, WAT BETREFT VERKOOPBAARHEID OF GESCHIKTHEID VOOR EEN BEPAALD DOEL.

Van kracht vanaf: 9 februari 2012

Garantieperiode voor wisselstukken van Cummins Filtration

- **Wisselstukken:**

Algemene wisselstukken	3 maanden vanaf datum van aankoop
Beperkingsmeters	1 jaar vanaf datum van aankoop
Externe koppen	1 jaar vanaf datum van aankoop
Air Shield™ dispensers dieseluitlaatvloeistof	3 jaar op pompen en motoren

- **Elektrische wisselstukken**

Blokverwarming van motor	1 jaar - enkel gedeeltelijk
PTC-verwarmingselement	1 jaar - enkel gedeeltelijk
Water-in-brandstof-sensor	1 jaar - enkel gedeeltelijk

- **Luchthouders, vloeistoffiltratiekits en ventilatiesamenstel van krukkast (open klemspanning/gesloten klemspanning)** 1 jaar vanaf datum van aankoop

- **Fleetguard enkel- en tweefase luchtvoorreinigers** 2 jaar vanaf datum van aankoop

- **Voor luchtfilters van het droge type geldt de garantie NIET indien ze zijn gereinigd of schoongemaakt op een andere manier.**

- **De chemische producten van Cummins Filtration zijn samengesteld, gemengd en getest om te voldoen aan de vereisten van OEM (Original Engine Manufacturers) en aan de prestatiespecificaties vastgelegd door de volgende internationale organisaties:**

ASTM	(Automotive Society for Testing and Materials)
SAE	(Society of Automotive Engineers)
TMC	(Technology and Maintenance Council)
JIS	(Japanese Industrial Standard)

Cummins Filtration kan geen garantie verstrekken voor haar chemische producten indien deze verkeerd zijn toegepast of gebruikt na ongeschikte onderhoudswerken.

- **Cummins Filtrations Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ en REN™ :**

Hardware (behuizing)	5 jaar vanaf datum van aankoop
Elektrische componenten	2 jaar vanaf datum van aankoop
Algemene wisselstukken	Niet gedekt door garantie
REN olietank	1 jaar vanaf datum van aankoop

- When the Original Engine Equipment Manufacturer approves ES (Extended Service) oil change intervals over their normal oil change intervals, ES (Extended Service) filters are required for Cummins Filtration warranty coverage.

- If you suspect a Fleetguard filter has caused progressive damage to your equipment, please call our Warranty Department at 1-800-223-4583. Please ensure that the suspect filter is kept intact and not cut opened or damaged in any way. Providing the filter in an "as used" condition will improve the ability to find the root cause of the problem.

康明斯滤清系统保修条款

如果您就康明斯滤清系统任何产品的性能有任何不满，我们十分乐意在有限保修范围内为您免费更换。

- 有限保修 –

保修：在个别情况下，如果产品发生故障并需要对发动机或组件进行修理，康明斯滤清系统将对损坏的发动机或组件进行修理或更换，并收取合理的修理或更换费用，以二者中较低者为准。设备的各项保修不会仅因使用了康明斯滤清系统的产品而失效。

保修期限：
本保修条款自康明斯滤清系统产品安装完毕之日起开始生效，至原始发动机制造商 (OEM)
建议的产品使用寿命或康明斯滤清系统公布的产品使用寿命到期时为止，以二者中期限较长者为准（有关您产品的特定信息，请查阅本页背面）。

保修限制：康明斯滤清系统对于因将产品用于非计划目的、使用不当、错误安装、擅自改动、使用者疏忽大意或偶然事件所引致的产品使用寿命减损或产品故障，或由超出康明斯滤清系统控制范围以外的操作所引致的状况（包括但不限于污染液体状况）概不负责。康明斯滤清系统也不对上述原因所引起的停机、收入损失、生活费用或其他附带损失或间接损失承担任何责任。“有限保修”是康明斯滤清系统所作的唯一保修承诺。康明斯滤清系统不会就产品的适销性或特定用途适用性等作出任何其他明示或暗示担保。

康明斯滤清系统产品保修期限

- **维修零件：**

一般维修零件	自购买之日起 3 个月
节流计	自购买之日起 1 年
远距给料器	自购买之日起 1 年
Air Shield™ DEF 剂量套件	泵体和发动机保修 3 年

- **维修零件 – 电子**

发动机组加热器	1 年 – 仅限零件
PTC 加热器	1 年 – 仅限零件
WIF 传感器	1 年 – 仅限零件

- **空气箱、液体过滤组件和**
  曲轴箱通风器组件（开放式 OCV/闭合式 CCV） 自购买之日起 1 年

- **Fleetguard 一级及二级空气预滤清器** 自购买之日起 2 年

- **如果您已自行对干式空气滤清器进行清洁或维修，则无权享受保修服务。**

- **康明斯滤清系统化工产品保证其配方、混合和测试均符合**
  OEM（原始发动机制造商）要求以及由下列国际组织所制定的性能规范：

ASTM	（美国材料与试验协会）
SAE	（美国汽车工程师协会）
TMC	（技术与维修委员会）
JIS	（日本工业标准）

  如果康明斯滤清系统的化工产品被误用或在维护方式不当的情况下使用，则康明斯滤清系统不能为其产品提供担保。

- **康明斯滤清系统的 Fleetguard Fuel Pro™、Diesel Pro™、Industrial Pro™、Sea Pro™ 和 REN™：**

硬件（外壳）	自购买之日起 5 年
电子元件	自购买之日起 2 年
一般维修硬件	无担保
REN 油罐	自购买之日起 1 年

- 当发动机主机厂批准超出其正常换油周期的长效（ES）换油周期时，康明斯滤清系统保修范围要求使用长效(ES)滤清器。

- 若您怀疑弗列加滤清器对您的设备造成严重损坏，请拨打1-800-223-4583
  联系我们的保修部门。请确保疑件完好，未曾切开，或受到任何形式的损坏。提供使用状态的滤清器将对找出根本原因更有帮助。

Cummins Filtration 保証書

Cummins Filtration 製品の性能にご満足いただけなかった場合は、当社の限定保証に基づいて無料で製品を交換させていただきます。

- 限定保証 -

保証：万一、製品の欠陥によりエンジンまたは部品の修理が必要になった場合、Cummins Filtration は、破損したエンジンまたは部品を修理または交換するための妥当な費用（いずれか安価な方）を返金いたします。装置保証は、Cummins Filtration 製品の使用によってのみ無効にされるものではありません。

保証期間： この保証は、Cummins Filtration 製品の設置日から、OEM が推奨する期間または Cummins Filtration が記載するこの製品の耐用年数のうちいずれか長い方にわたるものとします（具体的な製品情報については、この文書の裏面をご覧ください）。

制限事項：Cummins Filtration は、意図しない用途、誤用、不適切な設置、改造、不注意、事故、または Cummins Filtrations の管理範囲を超えた事象により生じた状況（液が汚染した状態を含むが、これに限定されない）による、耐用年数の短縮や故障については責任を負いません。Cummins Filtration は、ダウンタイム、逸失利益、生活費、その他の偶発的あるいは間接的な損害については責任を負いません。この限定保証は Cummins Filtration が行う唯一の保証です。Cummins Filtration は、明示か暗黙かにかかわらず、特定の目的のための商品性または適合性に関する保証は一切行いません。

Cummins Filtration 보증서

***Cummins Filtration** 제품의 성능에 불만이 있으신 경우, 제한적인 보증 하에 제품을 무료로 교환해 드립니다.*

-제한적인 보증-

보증: 흔하게 발생하는 일이 아니나, 엔진이나 부속품을 수리해야 하는 제품 결함이 발생한 경우 Cummins Filtration이 수리 또는 교환 중 비용이 적게 발생하는 쪽을 택하여 손상된 엔진이나 부품을 합리적인 가격에 보상해 드립니다. Cummins Filtration 제품을 사용한 것만으로 장비 보증이 무효가 되어서는 안 됩니다.

보증 기간: 이 보증은 Cummins Filtration 제품 설치일로부터 제품의 OEM 권장 기간 또는 Cummins Filtration이 공표한 서비스 기간 중에 긴 기간이 적용됩니다(특정 제품 정보는 이 양식의 뒷면을 참조하십시오).

제한: Cummins Filtration은 감소된 서비스 수명 또는 의도하지 않은 용도로 인한 오류, 오용, 잘못된 설치, 개조, 부주의, 사고 또는 Cummins Filtrations 통제를 벗어난 행위로 인한 오염된 액상 상태를 포함하되 이에 국한하지 않은 상태로 인한 고장에 책임을 지지 않으며 가동 휴지 기간, 수입 감소, 생활비 또는 기타 우발적이거나 필연적인 손해에 대해서도 책임을 지지 않습니다. 이 제한적인 보증은 Cummins Filtration에서 제공하는 유일한 보증입니다. CUMMINS FILTRATION는 특정 목적에의 상업성 또는 적합성에 대한 명시적 또는 암시적 보증을 부인합니다.

효력 발생 일자: 2012년 2월 9일

Cummins Filtration 제품의 보증 적용 기간

- **서비스 부품:**

일반 서비스 품목	구입일로부터 3개월
제한 게이지	구입일로부터 1년
원격 헤드	구입일로부터 1년
Air Shield™ DEF 디스펜싱 키드	펌프 및 모터의 경우 3년

- **서비스 부품-전기**

엔진 블록 히터	1년(부품만)
PTC 히터	1년(부품만)
WIF 센서	1년(부품만)

- **공기 하우징, 액상 여과 어셈블리 및 크랭크케이스 환풍장치 어셈블리(개방형-OCV/폐쇄형-CCV)** 구입일로부터 1년

- **Fleetguard 1단계 및 2단계 예비 공기 정화기** 구입일로부터 2년

- **건식 공기 필터는 어떠한 방법으로든 청소를 했거나 서비스를 받은 경우 보증에서 제외됩니다.**

- **Cummins Filtration 화학 제품은 OEM(Original Engine Manufacturers) 요구사항 및 다음 국제 기준에 따른 성능 사양을 충족하도록 제조, 혼합 및 시험되었음을 보증합니다.**

ASTM	(Automotive Society for Testing and Materials: 자동화 재료시험학회)
SAE	(Society of Automotive Engineers: 자동차 공학회)
TMC	(Technology and Maintenance Council: 기술 및 유지 협회)
JIS	(Japanese Industrial Standard: 일본 공업규격)

Cummins Filtration는 당사의 화학 제품이 잘못 적용되거나 부적절한 유지 조건에서 사용되는 경우에는 제품을 보증하지 않습니다.

- **Cummins Filtration Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ 및 REN™:**

하드웨어(하우징)	구입일로부터 5년
전기 부품	구입일로부터 2년
일반 서비스 하드웨어	보증 대상에서 제외
REN 오일 탱크	구입일로부터 1년

- 엔진제조장비의 일반적인 오일교환 주기상테에서 오일교환주기 연장을 위한 승인시, 교환주기 연장용 필터는 Cummins Filtration 품질보증 적용범위가 요구되어진다.

- 만약 귀사장비의 계속적인 손상원인이 Fleetguard 필터로 의심되어지면 당사의 품질보증부서 1-800-223-4583으로 전화주십시요. 또한 의심되어진 필터는 손상 시키커나 필터 내부를 열지 마시고 있는상태 그대로 보존하여 주십시요 " 사용된" 상태로의 필터 수거는 문제의 근원을 찾아내는데 많은 도움이 될것이다.

Гарантия Cummins Filtration

Если вас не устраивают эксплуатационные качества какого-либо изделия Cummins Filtration, мы готовы заменить его бесплатно в соответствии с условиями нашей ограниченной гарантии.

-Ограниченная гарантия-

Гарантия: В маловероятном случае возникновения необходимости ремонта двигателя или его компонентов, вызванной дефектом изделия Cummins Filtration, компания Cummins Filtration возместит, в разумных пределах, расходы на ремонт или замену (в зависимости от того, что обойдется дешевле) поврежденного двигателя или его компонентов. Использование продукции Cummins Filtration не должно приводить к аннулированию гарантий на другое оборудование.

Срок действия: Настоящая гарантия вступает в силу с момента установки изделия Cummins Filtration и действует в течение срока, рекомендованного производителем комплектного оборудования или заявленного Cummins Filtration, в зависимости от того, какой срок больше (информация по конкретной продукции приведена на обратной стороне данного документа).

Ограничения: Cummins Filtration не несет ответственности за сокращение срока эксплуатации или поломку в результате непредусмотренного использования, неправильного применения, неквалифицированной установки, модификации, пренебрежительного обращения, несчастного случая или ситуаций, вызванных обстоятельствами, не зависящими от Cummins Filtration, включая, в частности, загрязнение жидкости. Cummins Filtration не несет ответственности за простой оборудования, потерю прибыли, расходы на проживание или другие побочные или косвенные убытки. Настоящая ограниченная гарантия является единственной гарантией, предоставляемой Cummins Filtration. CUMMINS FILTRATION НЕ ДАЕТ НИКАКИХ ДРУГИХ ГАРАНТИЙ, ЯВНО ВЫРАЖЕННЫХ ИЛИ ПОДРАЗУМЕВАЕМЫХ, ПРИГОДНОСТИ ДЛЯ ПРОДАЖИ ИЛИ ИСПОЛЬЗОВАНИЯ ДЛЯ ОПРЕДЕЛЕННЫХ ЦЕЛЕЙ.

Дата вступления в силу: 9-Февраль 2012

Срок действия гарантии на продукцию Cummins Filtration

- **Запасные части:**
  Детали общего назначения — 3 месяца с момента приобретения
  Индикаторы ограничения воздушного потока — 1 год с момента приобретения
  Выносные головки — 1 год с момента приобретения
  Дозаторы жидких реагентов для нейтрализации отработавших газов дизельных двигателей Air Shield™ — гарантия 3 года на насосы и двигатели
- **Запасные части электрооборудования**
  Обогреватели блока цилиндров двигателя — гарантия 1 год только на деталь
  Нагревательный элемент PTC — гарантия 1 год только на деталь
  Датчик воды в топливе — гарантия 1 год только на деталь

- **Корпуса воздушных фильтров, устройства фильтрации жидкостей и системы вентиляции картера (открытого (OCV) и закрытого типа (CCV))** 1 год с момента приобретения

- **Одноступенчатые и двухступенчатые фильтры предварительной очистки воздуха Fleetguard** 2 года с момента приобретения

- **Гарантия НЕ распространяется на воздушные фильтры сухого типа в случае выполнения их очистки или обслуживания каким-либо иным образом.**

- **Компания Cummins Filtration гарантирует, что ее химическая продукция изготовлена по рецептуре, смешана и протестирована в соответствии с требованиями производителей комплектного оборудования (производителей оригинальных двигателей) и эксплуатационными характеристиками, установленными следующими международными организациями:**

  ASTM (Американское общество по испытанию материалов)
  SAE (Общество автомобильных инженеров)
  TMC (Совет по технологиям и техническому обслуживанию)
  JIS (Японский комитет промышленных стандартов)
  Компания Cummins Filtration не дает гарантию на свою химическую продукцию в случае ее неправильного применения или использования при ненадлежащих процедурах обслуживания.

- **Fleetguard Fuel Pro™, Diesel Pro™, Industrial Pro™, Sea Pro™ и REN™ от Cummins Filtration:**
  Оборудование (корпус) — 5 лет с момента приобретения
  Электрические компоненты — 2 года с момента приобретения
  Универсальное оборудование — Гарантия не предоставляется
  Масляный резервуар REN — 1 год с момента приобретения

- В том случае, когда производитель двигателей рекомендует расширенный сервисный интервал, в котором масло меняется реже, чем при стандартном обслуживании, необходимо использовать фильтры с расширенным интервалом замены для сохранения гарантии Cummins Filtration.

- Если у Вас возникло предположение о том, что фильтр Fleetguard нанес вред Вашему оборудованию, позвоните в отдел гарантии по телефону 101-800-223-4583. Пожалуйста, убедитесь, что данный фильтр не вскрыт и не имеет каких-либо повреждений. Предоставление бывшего в эксплуатации фильтра для изучения проблемы позволит выявить причину возникновения проблемы.

Disclaimer

This catalog is provided for convenience and is intended to be accurate. The manufacturer makes no guarantee, expressed or implied, to the accuracy of the catalog content.

Original Equipment Manufacturers (OEM's) offer engine and/or filter options on specific models; OEM's make changes during a production year; owners may modify equipment. Therefore, all models may not use the specific filter indicated in this catalog.

Refer to the OEM filter part number cross-reference for the most accurate information. Cummins Filtration is not responsible for misapplications. Some products are not available in all regions of the world.

Décharge de responsabilité

Ce catalogue est fourni à titre informatif et les informations qu'il contient se veulent exactes. Le fabricant n'offre aucune garantie, explicite ou implicite, quant à l'exactitude du contenu du catalogue.

Les équipementiers (également appelés OEM) offrent des options de moteur et/ou de filtre pour certains modèles spécifiques. Les équipementiers peuvent effectuer des modifications à tout moment au cours de l'année de production ; les propriétaires peuvent modifier l'équipement. Par conséquent, il est possible que certains modèles n'utilisent pas le filtre spécifique indiqué dans ce catalogue.

Pour obtenir les renseignements les plus exacts, reportez-vous au renvoi associé au numéro de référence du filtre OEM.
Cummins Filtration ne peut être tenu responsable d'une utilisation incorrecte de ce matériel. Certains produits ne sont pas disponibles dans toutes les régions du monde.

Haftungsausschluss

Dieser Katalog soll Ihr Einkaufserlebnis erleichtern und wir haben uns bemüht ihn vollständig und genau zu gestalten. Der Hersteller übernimmt jedoch keinerlei Garantie, weder implizit noch explizit, für die Richtigkeit der Kataloginhalte.

Erstausrüster (OEMs) bieten Ihnen Motor- und/oder Filteroptionen für spezielle Modelle; OEMs nehmen Änderungen während eines Produktionsjahres vor; Besitzer verändern eventuell ihre Maschinen. Folglich kann es sein, dass nicht alle Modelle genau die in diesem Katalog genannten Filter verwenden.

Genaue Informationen liefern Ihnen die Querverweise zu den OEM-Teilenummern der Filter.
Cummins Filtration zeichnet sich nicht verantwortlich für die falsche Anwendung. Einige Produkte sind nicht weltweit verfügbar.

Descargo de responsabilidad

Este catálogo se provee para mayor comodidad y pretende ser preciso. El fabricante no garantiza, ni expresa ni implícitamente, la precisión del contenido del catálogo.

Los Fabricantes de Equipos Originales (OEM, por sus siglas en inglés) ofrecen opciones de motores y/o filtros sobre modelos específicos; los OEM introducen cambios durante un año de producción; los propietarios pueden modificar sus equipos. Por lo tanto, es posible que no todos los modelos utilicen el filtro específico que se indica en este catálogo.

Para obtener información más precisa, consulte la referencia cruzada del número de pieza del filtro del OEM.
Cummins Filtration no se hace responsable por los usos indebidos. Algunos de los productos no están disponibles en todas las regiones del mundo.

Esclusioni di garanzia

Questo catalogo è fornito per comodità e si intende accurato. Il produttore non fornisce alcuna garanzia, implicita o esplicita, sulla accuratezza del contenuto del catalogo.

I produttori Original Equipment Manufacturer (OEM) offrono opzioni con motore e/o filtro per determinati modelli; gli OEM hanno la facoltà di modificare la linea di produzione nel corso dell'anno di produzione; i proprietari hanno la facoltà di modificare l'apparecchiatura. Di conseguenza, è possibile che non tutti i modelli utilizzino il filtro specifico indicato nel catalogo.

Per ottenere informazioni più precise, consultare il riferimento incrociato con il numero di serie del filtro OEM.
Cummins Filtration non risponde delle richieste errate. Alcuni prodotti non sono disponibili in tutti i paesi.

Isenção de Responsabilidade

Este catálogo foi feito para a sua conveniência e é o mais exato possível. O fabricante não dá nenhuma garantia, expressa ou implícita, da precisão do conteúdo do catálogo.

Os Fabricantes de Equipamento Original (OME's) oferecem várias opções de motores e/ou filtros em modelos específicos. Os fabricantes fazem mudanças durante o ano de produção, e os donos podem modificar os equipamentos. Portanto, é possível que nem todos os modelos utilizem os filtros indicados neste catálogo.

Para obter as informações mais precisas, compare com o número do OEM da peça do filtro.
A Cummins Filtration não se responsabiliza por usos incorretos. Alguns produtos não estão disponíveis em todas as regiões do mundo.

Disclaimer

Deze catalogus is bedoeld ter informatie en met grote zorgvuldigheid samengesteld. De fabrikant kan echter geen garantie geven, expliciet noch impliciet, met betrekking tot de nauwkeurigheid van de inhoud van de catalogus.

OEM-producenten (original equipment manufacturers) bieden motor- en/of filteropties aan op specifieke modellen; OEM-producenten voeren tijdens een productiejaar wijzigingen door; eigenaars kunnen hun apparatuur aanpassen. Daarom gebruiken mogelijk niet alle modellen het specifieke filter dat in deze catalogus staat aangegeven.

Raadpleeg voor de meest nauwkeurige informatie de verwijzingstabel met OEM-filteronderdeelnummers.
Cummins Filtration is niet verantwoordelijk voor onjuist gebruik. Niet alle producten zijn overal ter wereld verkrijgbaar.

免责条款

本目录是以方便客户为目的而提供的，旨在提供准确信息。但是，厂家对目录内容的准确性不作任何明示或隐含的保证。

原始设备制造商（OEM）是依照特定的型号来提供发动机和/或滤清器产品；原始设备制造商（OEM）在生产年度内会进行调整；用户也可能会更改设备。因此，并非全部型号都使用本目录中所列的特定滤清器。

请参阅原始设备制造商（OEM）的滤清器部件编号对照表以获取最准确的信息。
Cummins Filtration 对应用不当的情况不承担任何责任。某些产品并非在世界所有地区都有销售。

免責事項

本カタログはお客様の便宜を図るためのものであり、正確を期しておりますが、製造業者はカタログの内容の正確さについて明示的または黙示的な保証を行うものではありません。

相手先ブランド製造業者(OEM)は特定のモデルに対してエンジンやフィルターのオプションを提供しており、通常、型式年度内に変更を加えます。また、所有者が装置を改造する可能性もあります。したがって、本カタログに記載されている特定のフィルターがすべてのモデルに採用されているとは限りません。

最も正確な情報を得るには、OEMのフィルター部品番号のクロス・リファレンスを参照してください。Cummins Filtrationは、誤用に関する一切の責任を負いません。製品によっては、一部の地域ではお取り扱いのない場合があります。

면책 조항

본 카달로그는 편의를 위해 제공되며 정확한 기재를 의도합니다. 제조사는 카달로그 내용의 정확성에 대해 표현이나 암시를 통한 그 어떤 보증도 하지 않습니다.

주문자 상표에 의한 제품 생산자(OEM)는 특정 모델에 대해 엔진 및/또는 필터 옵션을 제공 합니다. OEM은 제조년도 1년내에 제품을 변경할 수 있습니다. 소유주들은 장비를 개조할 수 있습니다. 그러므로, 모든 모델은 본 카달로그에 기재된 특정 필터를 사용하지 않을 수도 있습니다.

가장 정확한 정보를 얻기 위해서는 OEM 필터 부품 번호 상호 참조표를 참고하십시오. Cummins Filtration은 제품의 오용에 대해서는 책임을 지지 않습니다. 세계 각지에 출시되어있지 않은 제품들도 있습니다.

Отказ от обязательств

Настоящий каталог предоставляется для удобства и необязательно содержит точные сведения. Производитель не дает явной или подразумеваемой гарантии точности содержания каталога.

OEM-производители выпускают приобретаемые отдельно двигатели и/или фильтры для конкретных моделей; OEM-производители вносят изменения в течение хозяйственного года; владельцы могут изменять оборудование. Как следствие, конкретный фильтр, указанный в каталоге, может использоваться не во всех моделях.

Наиболее точные сведения приводятся в каталоге перекрестных ссылок на номера OEM-частей.
Компания Cummins Filtration не несет ответственности за применение не по назначению. Некоторая продукция поставляется не во все регионы мира.

B. FOOTNOTES

ENGLISH

Common English Prefixes found throughout this catalog:

AA	-Air Kit,Dual Pack
AF	-Air Filter
AH	-Air Cleaner Housing (or self-contained air filter)
AK	-Air Kit
AS	-Air Oil Separator
AP	-Air Precleaner
CC	-Chemical Compound
DCA	-Diesel Coolant Additive
FF	-Fuel Filter
FS	-Fuel/water Separator
HF	-Hydraulic Filter
HH	-Hydraulic Head
LF	-Lube Filter
MK	-Maintenance Kit
NG	-Natural Gas
WF	-Water Filter

Common English Suffixes found throughout this catalog:

K	-Finned Air Filter
M	**-**Magnum "Long Life" air filter
S	**-**Service Part
SC	**-**Short Version

1. For a Fleetguard® Long-Life Magnum™ element, refer to the standard element in the Principal Application section.
2. For Cummins® KV-16 applications, use LF3325; for Detroit Diesel® applications, use LF3333; for all other applications, use LF670.
3. To meet Cummins specifications, use LF3000.
4. To meet Cummins specifications, use LF777.
5. Refer to Principal Application section to determine performance level.
6. Refer to Principal Application section for Synthetic Media version.
7. Complete kit must be installed before replacement element can be used (for most applications). Refer to "Superfilter" specifications in the Service Parts section for exact usage.
9. Propylene Glycol Formulation.
10. Gasket not packaged, must be ordered separately.
11. Bolt Seal.
12. Irregularly shaped gasket.
13. Washer.
14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number.
15. Does not meet OE specifications.
16. Parts are similar to one another, however they are not an exact cross.

FRANCAIS

Préfixes utilsés dans le catalogue :

AA	-Kit de deux filtres à air
AF	-Filtre à air
AH	-Boîtier de filtre à air (ou filtre à air auto-contenu)
AK	-Kit de filtre à air
AS	-Séparateur air/huile
AP	-Préfiltre à air
CC	-Composé chimique
DCA	-Additif de liquide de refroidissement de Diesel
FF	-Filtre à carburant
FS	-Filtre à carburant, séparateur d'eau
HF	-Filtre hydraulique
HH	-Tête de filtre hydraulique
LF	-Filtre de lubrifiant
MK	-Kit d'entretien
NG	-Gaz naturel
WF	-Filtre à eau

Suffixes utilisés dans le catalogue :

K	-Filtre à air à ailettes
M	-Filtre à air « longue durée » Magnum
S	-Pièce de rechange
SC	-Version courte

1. Pour l'élément « longue durée » Magnum, se référer à l'élément standard dans la section « Principal Application ».
2. Pour les applications Cummins KV-16, utiliser le LF3325; pour Detroit Diesel, utiliser le LF3333 ; pour toute autre application, utiliser le LF670.
3. Pour répondre aux spécifications Cummins, utiliser le LF3000.
4. Pour répondre aux spécifications Cummins, utiliser le LF777.
5. Voir les pages « Principal Applications » pour déterminer le niveau de performance.
6. Voir les pages « Principal Application » pour la version en matériau synthétique FG2000TM
7. Le kit complet doit être installé avant l'utilisation de l'élément de remplacement (pour la plupart des applications). Des conseils d'utilisation figurent à la page « Superfilter » dans la section « Service Parts ».
9. Formule chimique du propylène glycol.
10. Joint non inclus. A commander séparément.
11. Joint d'assemblage.
12. Joint de forme irrégulière.
13. Rondelle.
14. Cette équivalence est une version de numéro de pièce Beta 200 et une version améliorée du numéro Beta 75.
15. Ne répond pas aux spécifications d'origine.
16. Les pièces se ressemblent, mais elles ne sont pas identiques.

PORTUGUESE

Prefixos comuns:

AA -Kit duplo de ar
AF -Filtro de ar
AH -Carcaça do filtro de ar
AK -Kit para ar
AS -Filtro separador ar/óleo
AP -Pré-filtro de ar
CC -Componente químico
DCA -Aditivo para sistema de arrefecimento de motores diesel
FF -Filtro de combustível
FS -Filtro separador água/combustível
HF -Filtro hidraulico
HH -Cabeçote para filtro hidráulico
LF -Filtro para óleo lubrificante
MK -Kit de manutenção
NG -Gás natural
WF -Filtro de água

Sufixos comuns:

K -Filtro de ar com ventoinha
M -Filtro de ar de longa vida útil Magnum
S -Peça de reposição
SC -Versão curta

1. Para o elemento Fleetguard Magnum de longa duração, usar o elemento padrão na seção de aplicação principal.
2. Para aplicações em motores Cummins KV-16, usar o LF3325; para aplicações Detroit Diesel, use o LF3333; para as outras aplicações, usar o filtro LF670.
3. Para atender às especificações Cummins usar o LF3000.
4. Para atender às especificações Cummins usar o LF777.
5. Consulte a seção de aplicações principais para determinar o nivel de desempenho.
6. Consulte a seção de aplicações principais para obter a versão do meio filtrante sintético.
7. O kit completo dever ser instalado antes da montagem do elemento de reposição (para a maioria das aplicações). Para uma utilização correta, recorrer as especificações do Superfilter, dentro da seção de peças de serviço.
9. Composição de Propileno Glicol.
10. Junta não embalada com o filtro, dever ser pedida separadamente.
11. Junta do passador.
12. Junta de perfil irregular.
13. Limpador.
14. Esta referência cruzada refere-se a um número de peça onde o meio filtrante tem B= 200, e é uma versão atualizada para a peça onde o meio filtrante tem B=75.
15. Não atende às especificações do equipamento original.
16. As peças são semelhantes entre si. Contudo, não constituem uma referência cruzada exata.

DEUTSCH

Im Katalog verwendete Abkürzungen

AA -Luftfiltersatz, Doppelpack
AF -Luftfilter
AH -Luftreinigergehäuse (oder eigenständige Einheit)
AK -Luftfiltersatz
AS -Luft/Öl-Abscheider
AP -Luft/Öl-Abscheider
CC -Chemische Zusammensetzung
DCA -Dieselkraftstoff (kältebedingt)
FF -Kraftstofffilter
FS -Kraftstoff-Wasserabscheider
HF -Hydraulikfilter
HH -Hydraulik Filterkopf
LF -Ölfilter
MK -Wartungssatz
NG -Erdgas
WF -Wasserfilter

Im Katalog verwendete, nachgestellte Bezeichnungen:

K -Luftfilter mit Rippen
M -Magnum-Langzeitluftfilter
S -Zubehör
SC -kurze Ausführung

1. Zu einem Fleetguard Magnum Langzeit-Element im Katalog im Abschnitt Anwendungen unter Standard-Elemente nachschlagen.
2. Verwenden Sie LF3325 für Cummins KV-16-Anwendungen, LF3333 für Detroit Diesel-Anwendungen und LF670 für alle anderen Anwendungen.
3. Bitte LF3000 für Cummins Spezifikationen verwenden.
4. Bitte LF777 verwenden, um Cummins-Spezifikationen zu entsprechen.
5. Zur Kapazitätsbestimmung bitte unter Hauptanwendungen nachschlagen.
6. Synthetische Version bitte unter Hauptanwendungen nachschlagen.
7. Der komplette Einbausatz muss installiert werden, bevor das Ersatzteil benutzt werden kann (bei den meisten Anwendungen). Exakte Gebrauchshinweise finden Sie im Abschnitt Zubehör unter Superfilter-Spezifikation.
9. Propylenglycol-Verbindung.
10. Dichtung nicht eingeschlossen, bitte separat bestellen.
11. Bolzendichtung.
12. Spezialdichtung.
13. Unterlegscheibe.
14. Dieser Querverweis bezeichnet eine Bauteilnummer für ein Beta 200 Medium und ist der Nachfolger der Beta 75 Nummer.
15. Entspricht nicht der OE-Spezifikation.
16. Teile sind sehr ähnlich, stimmen jedoch nicht überein.

B. FOOTNOTES

ESPANOL

Prefijos utilizados en este catálogo:

AA -Juego de 2 filtros de aire
AF -Filtro de aire
AH -Carcasa de limpiador de aire (o filtro de aire independiente)
AK - Juego de filtro de aire
AS -Separador aire/aceite
AP -Prelimpiador de aire
CC -Compuesto químico
DCA -Aditivo refrigerante Diesel
FF -Filtro de combustible
FS -Separador de agua/combustible
HF -Filtro hidráulico
HH -Cabezal de filtro hidráulico
LF -Filtro de lubricación
MK -Kit de mantenimiento
NG -Gas natural
WF -Filtro de agua

Sufijos utilizados en este catálogo:

K -Filtro de aire con aletas
M -Filtro de aire "Magnum" larga vida
S -Partes para mantenimiento
SC -Versión corta

1. Para un elemento de filtro Fleetguard Magnum larga vida, consulte el modelo de filtro estándar en la sección Aplicación Principal.
2. Para las aplicaciones Cummins K-16, utilice LF3325; para las aplicaciones Diesel Detroit utilice LF3333; para todas las otras aplicaciones utilice LF670.
3. Para cumplir las especificaciones Cummins, utilice LF3000.
4. Para cumplir las especificaciones Cummins, utilice LF777.
5. Consulte la sección Aplicación Principal para determinar el nivel de rendimiento.
6. Consulte la sección Aplicación Principal para la versión de Medio Sintético.
7. El juego completo deberá estar instalado antes de que el elemento de reemplazo pueda ser utilizado (para la mayoría de las aplicaciones). Para una utilización correcta, véase especificaciones "Superfilter" dentro de la sección Partes para Mantenimiento.
9. Fórmula de Glicol Propileno.
10. La junta no está incluida, debe ser pedida por separado.
11. Cierre de pasador.
12. Junta de forma irregular.
13. Limpiador.
14. Este filtro tiene un medio filtrante tipo beta 200, versión mejorada del beta 75.
15. No cumple con las especificaciones para equipos originales
16. Las piezas se parecen entre sí, sin embargo, no son exactamente intercambiables.

ITALIANO

Prefissi più comuni adottati nel catalogo:

AA - Kit filtri aria, doppio
AF -Filtro Aria
AH -Alloggiamento filtro aria (o filtro aria autonomo)
AK -Kit filtri aria
AS -Separatore aria olio
AP - Pre-filtro aria
CC -Composto chimico
DCA -Additivo refrigerante diesel
FF -Filtro combustibile
FS -Filtro combustibile, separatore acqua/combustibile
HF -Filtro idraulico
HH -Testa idraulica
LF -Filtro di lubrificazione
MK -Kit di manutenzione
NG -Gas naturale
WF -Filtro acqua

Suffissi più comuni adottati nel catalogo:

K -Filtro aria ad alette
M -Filtro aria Magnum a lunga durata
S -Parte di servizio
SC -Versione piccola

1. Per i filtri aria Magnum a lunga durata, consultare l'elemento filtrante standard nella sezione Principal Application (Applicazione principale).
2. Per applicazioni Cummins KV-16, usare LF3325; per applicazioni Detroit Diesel, usare LF3333. Per tutte le altre applicazioni, usare LF670.
3. Per soddisfare le specifiche Cummins, usare LF3000.
4. Per soddisfare le specifiche Cummins, usare LF777.
5. Consultare la sezione Principal Application (Applicazione principale) per determinare i livelli di prestazione delle unità.
6. Per la versione con materiale sintetico, consultare la sezione Principal Application (Applicazione principale).
7. Prima di poter utilizzare un elemento filtrante di ricambio (per la maggior parte delle applicazioni) occorre installare il kit completo. Per l'utilizzo corretto, consultare le specifiche "Superfilter" nella sezione Service Parts (Parti di ricambio).
9. Formula con propilene glicole.
10. Le guarnizioni non sono in dotazione, ma possono essere ordinate separatamente.
11. Guarnizione per bullone.
12. Guarnizione con profilo irregolare.
13. Rondella
14. Questo riferimento incrociato è un numero di parte 200, un aggiornamento al numero di parte 75.
15. Non conforme alle specifiche OE.
16. Le parti sono simili; tuttavia non sono un riferimento incrociato esatto.

NEDERLANDS

Gebruikte afkortingen in de catalogus:

AA - Luchtset, dubbelpak
AF - Luchtfilter
AH - Luchtfilterbehuizing (of zelfstandig luchtfilter)
AK - Luchtset
AS - Lucht/olie-separator
AP - Centrifugaal voorfilter
CC - Chemische verbinding
DCA - Additief voor dieselkoeler
FF - Brandstoffilter
FS - Brandstof/water-separator
HF - Hydraulische filter
HH - Hydraulische filterkop
LF - Smeerfilter
MK - Onderhoudsset
NG - Aardgas
WF - Waterfilter

Aanvullende afkortingen:

K - Luchtfilter met vinnen
M - Magnum Long Life luchtfilter
S - Serviceonderdeel
SC - Korte versie

1. Zie voor een Fleetguard Long Life Magnum element het referentienummer van het standaardelement in 'Principal Application'.
2. Gebruik voor de Cummins KV-16 toepassingen LF3325; voor Detroit Diesel toepassingen LF3333; voor alle andere toepassingen LF670.
3. Om te voldoen aan de Cummins-specificaties, gebruik LF3000.
4. Om te voldoen aan de Cummins-specificaties, gebruik LF777.
5. Kijk onder 'Principal Application' voor het prestatieniveau.
6. Kijk onder 'Principal Application' voor de Synthetic Media versie.
7. De volledige kit dient geïnstalleerd te worden voordat het vervangingselement gebruikt kan worden (voor de meeste toepassingen). Zie voor het juiste gebruik de Superfilter Plus-specificaties in 'Service Parts'.
9. Propyleen-glycol formule.
10. Exclusief pakking, deze moet apart besteld worden.
11. Schroefdichting.
12. Onregelmatig gevormde pakking.
13. Sluitring.
14. Dit is een beta 200 media onderdeelnummer, een verbeterde versie van het beta 75 nummer.
15. Voldoet niet aan OE specificaties.
16. Onderdelen zijn gelijksoortig, maar niet geheel identiek.

中文

本产品目录中常见英语前缀解释：

AA - 空滤套件，二组装
AF - 空气滤清器
AH - 空气滤清器壳（或自给式空气滤清器）
AK - 空滤套件
AS - 油气分离器
AP - 空气预清器
CC - 发动机冷却液
DCA - 冷却水添加剂
FF - 燃油滤清器
FS - 油水分离器
HF - 液压油滤清器
HH - 液压头
LF - 机油滤清器
MK - 维护套件
NG - 天然气
WF - 水过滤器

本产品目录中常见英语后缀解释：

K - 板翅式空气滤清器
M -Magnum 长寿命空气滤清器
S - 维修备件
SC - 简易型

1. 如需 Fleetguard Long-Life Magnum 滤芯，请参阅 Principal Application（高级应用）部分的标准滤芯。
2. 对 Cummins KV-16 应用，请使用 LF3325；对 Detroit Diesel 应用，请使用 LF3333；对所有其它应用，请使用 LF670。
3. 为满足 Cummins 规格，请使用 LF3000。
4. 为满足 Cummins 规格，请使用 LF777。
5. 请参阅 Principal Application（高级应用）部分内容，了解产品性能情况。
6. 请参阅 Principal Application（高级应用）部分内容，了解 Synthetic Media（合成纤维滤材）产品。
7. 在使用更换滤芯前必须安装上完整的组件（对多数应用）。请参阅 Service Parts（维修备件）中的 Superfilter（超级滤清器）规格，了解正确的使用方法。
9. 丙二醇配方。
10. 不含垫圈，需单独订购。
11. 螺栓密封。
12. 不规则形状垫圈。
13. 垫片。
14. 本对照表是根据 beta 200 滤材部件编号制定，它是 beta 75 滤材部件编号的更新。
15. 不符合 OE 规格。
16. 两种部件相似，但对照并不正确。

B. FOOTNOTES

日本語

本カタログで使われている共通の英語接頭語

AA -エアー・キット、デュアル・パック
AF -エアー・フィルター
AH -エアー・クリーナー・ハウジング（または自己完結型-エアー・フィルター）
AK -エアー・キット
AS -エアー・オイル・セパレーター
AP -エアー・プリクリーナー
CC -化合物
DCA -ディーゼル冷却液添加剤
FF -燃料フィルター
FS -燃料/水分セパレーター
HF -油圧フィルター
HH -油圧ヘッド
LF -潤滑油フィルター
MK -整備キット
NG -天然ガス
WF -水分フィルター

本カタログで使われている共通の英語接尾語

K -フィン付きエアー・フィルター
M -長寿命マグナム・エアー・フィルター
S -保守部品
SC -短かいバージョン

1. Fleetguard長寿命マグナム・エレメントについては、「主要なアプリケーション」セクションの標準エレメントを参照してください。
2. Cummins KV-16アプリケーションにはLF3325を使用します。Detroit Dieselアプリケーションには LF3333を使用します。それ以外のすべてのアプリケーションには、LF670を使用します。
3. Cumminsの仕様を満たすには、LF3000を使用します。
4. Cumminsの仕様を満たすには、LF777を使用します。
5. 性能のレベルについては、「主要なアプリケーション」セクションを参照してください。
6. Synthetic Mediaバージョンについては、「主要なアプリケーション」セクションを参照してください。
7. ほとんどのアプリケーションの場合、交換エレメントを使用する前にすべてのキットを取り付ける必要があります。正しい使用法については、「整備部品」セクションの「スーパーフィルター」の仕様を参照してください。
9. プロピレン・グリコール剤
10. ガスケットはパッケージに含まれていません。別途注文する必要があります。
11. ボルト・シール
12. 基準外の形状のガスケット
13. ワッシャー
14. このクロス・リファレンス項目は、ベータ200メディアの部品番号です。ベータ75の部品番号のアップグレードとなります。
15. OE仕様を満たしていません。
16. 各部品は互いに類似していますが、クロス・リファレンス項目は異なります。

한국어

이 카탈로그 전반에서 사용되는 공통된 영어 접두사:

AA -에어 키트, 듀얼 팩
AF -공기 필터
AH -공기청정기 하우징 (또는 내포된 공기 필터)
AK -에어 키트
AS -공기 오일 제거기
AP -공기 프리클리너
CC -화학물
DCA -디젤 냉각제 참가물
FF -연료 필터
FS -연료/물 분리기
HF -유압 필터
HH -유압 헤드
LF -윤활유 필터
MK -유지보수 키트
NG -천연가스
WF -정수 필터

이 카탈로그 전반에서 사용되는 공통된 영어 접두사:

K -핀공기 필터
M -Magnum “Long Life” 공기 필터
S -서비스 부품
SC -쇼트 버전

1. Fleetguard Long-Life Magnum의 구성요소는 주요어플리케이션 절의 표준 구성요소를 참조하십시오.
2. Cummins KV-16 어플리케이션에는 LF3325를, 디트로이트 디젤 어플리케이션에는 LF3333를, 기타 모든 어플리케이션에는 LF670를 이용합니다.
3. Cummins 사양을 충족하려면 LF3000을 이용합니다.
4. Cummins 사양을 충족하려면 LF777을 이용합니다.
5. 성능 수준은 주요 어플리케이션 절을 참조하십시오.
6. 합성 미디어 버전은 주요 어플리케이션 절을 참조하십시오.
7. 키트를 완전히 설치한 뒤 교체 구성요소를 이용해야 합니다(대부분의 어플리케이션이 해당됨). 정확한 사용법은 서비스 부품 절의 ‘Superfilter’ 사양을 참조하십시오.
9. 프로필렌 글리콜 제조
10. 개스킷은 포함되지 않으며, 별도로 주문해야 합니다
11. 볼트 씰(Bolt Seal)
12. 불규칙적인 형태의 개스킷
13. 세척장치
14. 이 십자형은 베타 200 미디어 부품 번호이며, 베타 75 번호의 업그레이드 버전입니다.
15. OE 사양에 맞지 않음
16. 부품은 서로 비슷하나, 완전 십자형은 아닙니다.

РУССКИЙ

Типовые английские префиксы, используемые в этом каталоге

AA	-Air Kit, Dual Pack (двойной воздушный комплект)
AF	-Air Filter (воздушный фильтр)
AH	-Air Cleaner Housing (или self-contained air filter) (корпус воздухоочистителя, автономный воздушный фильтр)
AK	-Air Kit (воздушный комплект)
AS	-Air Oil Separator (воздухо- и маслоотделитель)
AP	-Air Precleaner (воздухоочиститель предварительной очистки)
CC	-Chemical Compound (химическое соединение)
DCA	-Diesel Coolant Additive (дизельная охлаждающая присадка)
FF	-Fuel Filter (топливный фильтр)
FS	-Fuel/water Separator (топливо- и водоотделитель)
HF	-Hydraulic Filter (гидравлический фильтр)
HH	-Hydraulic Head (гидравлическая головка)
LF	-Lube Filter (смазочный фильтр)
MK	-Maintenance Kit (комплект обслуживания)
NG	-Natural Gas (природный газ)
WF	-Water Filter (водяной фильтр)

Типовые английские суффиксы, используемые в этом каталоге

K	-Finned Air Filter (ребристый воздушный фильтр)
M	**-**Magnum ‘‘Long Life‘‘ air filter (воздушный фильтр Magnum Long Life)
S	**-**Service Part (запасная часть)
SC	**-**Short Version (краткая версия)

1. Сведения об элементе Fleetguard Long-Life Magnum см. в описании стандартного элемента в разделе «Основная область применения».
2. Для установок Cummins KV-16 используйте LF3325; для установок Detroit Diesel используйте LF3333; для всех остальных установок используйте LF670.
3. Для обеспечения соответствия спецификации Cummins используйте LF3000.
4. Для обеспечения соответствия спецификации Cummins используйте LF777.
5. Для определения уровня производительности см. раздел «Основная область применения».
6. Сведения о версии Synthetic Media см. в разделе «Основная область применения».
7. Перед использованием элемента на замену необходимо установить полный комплект (для большинства применений). Сведения о конкретном использовании см. в спецификациях Superfilter в разделе «Запасные части».
9. Формула пропиленгликоля.
10. Прокладка не входит в комплект и заказывается отдельно.
11. Уплотнение болта.
12. Прокладка нестандартной формы.
13. Шайба.
14. Эта перекрестная ссылка имеет номер по каталогу 200 media и является обновлением для номера beta 75.
15. Не соответствует спецификациям OE.
16. Части похожи друг на друга, однако на них нельзя давать точную перекрестную ссылку.

Fleetguard®

COOLANTS: What You Don't Know Can Hurt Your Engine

40% of all engine problems originate in the cooling system. Our complete line of cooling system products includes everything you need to ensure an easy, trouble-free cooling maintenance program and avoid the pitfalls you may not even know exist.

- Fully-Formulated Heavy-Duty Antifreeze/Coolants
- Cooling System Cleaners
- Field and Laboratory Testing

Scan Here to learn more about Fleetguard Coolants

www.cumminsfiltration.com/html/en/products/cooling/cooling_system.html

Fleetguard antifreeze/coolants are available at over 33,000 locations worldwide.

Cross Reference by Part Number

In the following pages are listed thousands of competitive filter manufacturers and original equipment part numbers, in numeric-alpha order. Simply locate your part number (ignore initial zeros, dashes, and periods). The Fleetguard part number is then referenced, along with a code to the competitive manufacturer. A listing of codes and manufacturers' names follows immediately. Always verify the manufacturer's name to assure that the cross reference is correct, as numbers may be duplicated by different manufacturers.

For part numbers not listed in this section, please visit cumminsfiltration.com or contact your local Cummins Filtration office.

Correspondances par numéro de pièce

Dans les pages qui suivent, vous trouverez une liste comportant des milliers de numéros de pièces de fabricants de filtres concurrents et de constructeurs, répertoriés par ordre alphanumérique. Il vous suffit de chercher la référence (ne tenez pas compte du zéro initial, des tirets et des points). Le numéro de pièce Fleetguard est indiqué, avec à droite une abréviation du nom du fabricant. Vous trouverez en fin de rubrique une liste donnant les abréviations et noms des fabricants. Vérifiez toujours le nom du fabricant, pour vous assurer que la correspondance est bonne, les mêmes numéros pouvant être utilisées par différents fabricants.

Si les numéros des pièces que vous recherchez n'apparaissent pas sous cette rubrique, veuillez consulter cumminsfiltration.com ou prendre contact avec votre centre de distribution Cummins Filtration local.

Querverweis anhand der Bauteilnummer

Auf den folgenden Seiten finden Sie eine Liste von Herstellern und Bauteilnummern (Originalprodukte) in alphanumerischer Reihenfolge. Machen Sie Ihre Bauteilnummer ausfindig (erste Nullstelle, Punkte und Bindestriche können ignoriert werden). Die Fleetguard-Bauteilnummer wird dann gemeinsam mit dem Code anderer Hersteller angezeigt. Unmittelbar darauf folgt eine Liste von Codes und Herstellernamen. Bitte überprüfen Sie den Herstellernamen um sicherzustellen, dass es sich um den richtigen Querverweis handelt, da es vorkommt, dass von verschiedenen Herstellern dieselbe Bauteilnummer verwendet wird.

Falls Sie Ihre Bauteilnummer nicht in diesem Abschnitt finden können, besuchen Sie bitte cumminsfiltration.com oder wenden Sie sich an Ihren Cummins Filtration-Vertreter vor Ort.

Referencia cruzada por número de pieza

En las páginas siguientes, hallará una lista de miles de referencias de fabricantes de filtros competitivos y de números de piezas de equipo original , por orden alfanumérico. Basta buscar su número de pieza (sin tener en cuenta el cero inicial ni los guiones y puntos). Encontrará la correspondencia Fleetguard con un código del nombre del fabricante de la competencia. A continuación, encontrará una lista de los códigos y de los nombres de fabricantes. Siempre debe verificar el nombre del fabricante a fin de cerciorarse de que se trata de la referencia cruzada correcta, puesto que varios fabricantes podrían utilizar un mismo número para los productos.

Si el número de pieza que busca no se halla en este apartado, visite cumminsfiltration.com o póngase en contacto con la oficina Cummins Filtration más cercana.

Riferimenti incrociati in base al numero di parte

Le pagine che seguono contengono i nomi di migliaia di fabbricanti di filtri concorrenti ed i numeri di parte originali, in ordine alfanumerico. Trovare il numero desiderato (trascurare zero iniziali, trattini e punti). Si fa inoltre riferimento al numero di parte Fleetguard, unitamente ad un codice dei prodotti concorrenti ed al nome del fabbricante. Controllare sempre il nome del fabbricante per accertarsi che il riferimento incrociato sia corretto, poiché i numeri possono essere duplicati da fabbricanti diversi.

Per i numeri di parte non elencati in questa sezione, andare a cumminsfiltration.com o consultare l'ufficio Cummins Filtration di zona.

Localização do número de peça correspondente

Nas páginas seguintes se encontram listados milhares de filtros fabricados por nossos concorrentes e números de peças originais em ordem alfa-numérica. Localize o numero de seu filtro (ignore zeros no começo, traços e pontos). O numero do filtro Fleetguard estará relacionado junto com o código do filtro do nosso concorrente. Uma lista de códigos e nome de fabricantes segue imediatamente. Devido a possibilidade de duplicação de número das peças por diference fornecedores, verifique sempre o nome do fabricante para certificar-se de que a referência é correta.

Para obter informações sobre números de peças que não se encontram listadas nesta seção, visite o site cumminsfiltration.com ou entre em contato com seu escritório local da Cummins Filtration.

Referentielijst op onderdeelnummer

Op de volgende pagina's staan duizenden concurrerende filterfabrikanten en OE-onderdeelnummers (originele uitrusting), in alfanumerieke volgorde. Zoek uw onderdeelnummer (beginnullen, streepjes en punten negeren). U vindt daarachter een verwijzing naar het Fleetguard onderdeelnummer en de code van de concurrerende fabrikant. Controleer altijd met behulp van de navolgende codelijst voor fabrikantnamen de naam van de fabrikant, om er zeker van te zijn dat de verwijzing juist is, want dezelfde nummers kunnen door verschillende fabrikanten gebruikt worden.

Voor onderdeelnummers die niet in de lijst zijn opgenomen, kunt u terecht op cumminsfiltration.com of contact opnemen met uw plaatselijke Cummins Filtration-kantoor.

部件编号对照

以下数页中以数字字母为顺序，列出了数千个滤清器竞争厂家和原始设备制造商 (OEM)
的部件编号。只需找到您的部件编号（忽略前面的零、连字符和点号）。
然后就可与 Fleetguard 的部件编号进行对照，同时还可查看相应竞争厂家的代码。部件编号后紧跟着代码和厂家名称列表。由于不同厂家可能使用相同的部件编号，
所以请记住验证厂家名称是否正确，以确保部件编号对照准确无误。

对于此处未列出的部件编号，请访问cumminsfiltration.com 或联系您当地的 Cummins Filtration 办事处。

部品番号によるクロス・リファレンス

次のページには、何千もの競合するフィルター製造業者とそのオリジナル装置の部品番号一覧がアルファベット順に記載されています。目的の部品番号を探してください(先頭のゼロ、ダッシュ、およびピリオドは無視してください)。Fleetguardの部品番号が、競合する製造業者のコードと共に参照できます。Fleetguardの部品番号のすぐ後に、コードと製造業者名が記載されています。番号が他の製造業者のものと重複している場合があるので、必ず、製造業者名を確認して、クロス・リファレンスが正しいことを確認してください。

このセクションに記載されていない部品番号については、cumminsfiltration.com をご覧になるか、最寄りのCummins Filtrationオフィスまでお問い合わせください。

부품 번호별 상호 참조

다음 페이지에는 수천 곳의 경쟁 필터 제조업체와 원 장비의 부품 번호가 숫자-알파벳 순으로 나열되어 있습니다. (첫머리의 0, 대시, 점을 무시하고) 간편하게 부품 번호를 찾으십시오. 그런 다음, 경쟁 제조업체 코드와 함께Fleetguard 부품 번호를 참조하십시오. 코드와 제조업체 이름이 즉시 나열됩니다. 제조업체들이 동일한 부품 번호를 사용할 수도 있기 때문에, 항상 제조업체의 이름을 확인하여 상호 참조가 올바른지 확인하십시오.

본 절에 나열되지 않은 부품 번호는 cumminsfiltration.com 을 방문하거나 가까운Cummins Filtration 사무실에 문의 바랍니다.

Перечень перекрестных ссылок по номеру части

На следующих страницах в буквенно-цифровом порядке приводятся тысячи конкурирующих производителей фильтров и номера частей оригинального оборудования. Достаточно найти нужный номер части (не обращайте внимания на нули, тире и точки в начале). Затем указывается ссылка на номер части Fleetguard, а также код конкурирующего производителя. Далее приводится перечень кодов и наименований изготовителей. Всегда проверяйте наименование производителя, чтобы гарантировать правильность перекрестной ссылки, поскольку номера могут дублироваться у разных производителей.

Сведения о номерах частей, приведенных в этом разделе, см. на сайте cumminsfiltration.com или получите их в региональном представительстве компании Cummins Filtration.

D. CROSS REFERENCE BY PART NUMBER MANUFACTURER INDEX

Following is a list of all manufacturer's abbreviated names used in the Number Finder Cross Reference. You should always verify the manufacturer's name to assure accuracy of your cross reference.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

0026518-9	**HF6118** VOLV Upgrade: **HF6271**

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

270.0213	**HF30700** HYMC
270.0216	**FF4052A** HYMC

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

Upgrade: **LF3559**	
Upgrade: **LF3919**	

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

662	**LF716**	CRSL
662	**AF4594**	FCET

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

Upgrade:	**LF3559**
Upgrade:	**LF3919**

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

D. CROSS REFERENCE BY PART NUMBER

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

Upgrade: **AF879M**	

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.

1. For a Fleetguard Long-Life Magnum element, refer to the standard element in the Principal Application section. 2. For Cummins KV-16 applications, use LF3325; for Detroit Diesel applications, use LF3333; for all other applications, use LF670. 5. Refer to Principal Application section to determine performance level. 6. Refer to Principal Application section for Synthetic Media version. 7. Complete kit must be installed before replacement element can be used (for most applications). Refer to 'Superfilter' specifications in the Service Parts section for exact usage. 9. Propylene Glycol Formulation. 14. This cross is a beta 200 media part number, and is an upgrade for the beta 75 number. 15. Does not meet OE specifications.
